

## Chapter 6

### Mistakes & Extras of a Great Lender

“Baseball is life, the rest is just details.”

Sounds like another Yogi Berra quote, doesn't it?

Don't be fooled, however. It's actually a line I once saw on a t-shirt.

Assuming the t-shirt's creator had any business savvy, they probably made other versions of the shirt for other sports too.

But is baseball (or football, basketball, etc.) really life?

Anyone who'd buy those t-shirts clearly thinks so. Yet not everyone is so passionate about sports.

In fact - and this probably sounds crazy, if you're a sports junkie - some people actually find sports boring.

For this latter group, we can only wonder about the slogans they'd want on a t-shirt.

Perhaps something along the lines of, “Tax accounting is life, the rest is just details.”

Not to pick on tax accountants. Their field just happens to have a reputation for being dry and unexciting, the exact opposite of a loud, energetic sports game.
